BRUCE RAUNER  
GOVERNOR

JACKIE COOK  
ADMINISTRATOR/TA

STEPHEN CURDA  
DIRECTOR

September 10, 2018

Dear Resident and/or Responsible Party,

The Illinois Department of Veterans' Affairs is required to notify all residents and their Powers of Attorney or designated family member or representatives in writing when there are two or more instances of "an infectious disease" present anywhere in the Veterans Home. This is in accordance with House Bill 4278, Public Act 100-0632, which was signed into law on July 27, 2018.

Please note there have been two or more instances of Pneumonia at the Illinois Veterans Home LaSalle as of 9/10/2018.

Please feel free to contact the Nursing unit for specific information or any questions or concerns. Please see our website, <https://www2.illinois.gov/veterans/homes/Pages/Notifications.aspx>, for further notices or updates. The fact remains that communicable diseases happen in communal type living, and we take this very seriously. Please rest assured that our residents' health and comfort is of utmost importance to us and we are treating these instances with appropriate medication and comprehensive care.

Sincerely,

Jackie Cook  
Veterans Home Administrator/TA
